There is a huge Economic Impact in your County if you do not have enough childcare offered to take care of the working families. Commissioner Carlson asked why a Representative from USD 379 isn't here to sell this Child Care Facility along with you. What happens after the first year when the Federal funds are depleted, who is going to pay the cost for this facility to run. Ms. Muruato stated that she was not aware that the Board was wanting USD 379 to attend with her. Commissioner Carlson stated that he had been in contact with one of the School Board members and wondered if USD 379 has figures on what this Center will cost after the first year. We really do not want to see an increase in the mill levy to run the Center after the first year. Commissioner Mayo stated that people are paying enough in taxes in today's economic times. Commissioner Mayo also asked if the Child Care Center will be open for 9 months like school or will it be open for the 12 months. Ms. Muruato stated that the grant requires that the Center be open for the 12 months. The Board still did not make a decision on donated funds to this project.
