Ryan West, County Maintenance, met with the Board to discuss the cleanup of the Courthouse Square after the yard has been used for an event. Mr. West stated that he understands having the public use the square for different events. But after the Christmas Festival the Maintenance Department spent many hours cleaning up items that cannot be left on the grass. There were t-post stakes left in the ground and laying on the ground, lots of pieces of wire, zip ties, and trash. All of these items will be harmful when we have to get the mower out later this spring. Also, people are messing with the timers on the lamp post and now part of the lamps will not work at all. Mr. West stated that he is in agreement to have everyone using the square for an event to sign the document drafted for the use of the yard.

This involved cutting trees, in the ditch, around and under the bridges, weed eat around signs, under bridges, guardrail and intersections. This work will be done all within the right-of-way. The Department worked on several other tree jobs throughout the County, worked in the shop on equipment maintenance, and transported the rubber tire packer back to the shop from Topeka where repairs were made. They also prepped all equipment for the incoming snow if it hits our area. They purchased 8 – 11R22.5 drive tires from Kansasland Tires in the amount of \$5,050.08 to place on one truck and to have an extra set on hand. Mr. Shomper informed the Board that he tried out a woodchipper from Caterpillar for a couple of days but due to issues with it they only charged the County \$793.13. This chipper was insufficient for the task that they are wanting to use it for. The one that they feel would work would be more like a Morbark Eeger Beever 1821 chipper from Kirby-Smith. The monthly cost to rent this machine would be \$6,000 per month. The Board decided to wait on the rental from Kirby-Smith for they feel that is a lot of money for one month's rent.
