

## 2025 Real Estate Inspection Area

The Clay County Appraiser's Office is conducting inspections of real property as part of the 17% maintenance review. The field staff will review the properties for accuracy of characteristic data and update records if necessary.

The majority of the review area includes properties in the southern part of the City of Clay Center, along with the Townships of Five Creeks, Blaine, Oakland, Exeter, and Union.

The field staff can be identified with Clay County photo identification badges and will be driving vehicles that are marked with Clay County. Property owners with questions may contact the office at (785) 632-5264
