

## **CLAY COUNTY EMS VISION STATEMENT**

**The purpose and future vision of the activities of Clay County Emergency Medical Services shall be:**

To assure quality public service that provides for the present and future well being of the citizens of Clay County and the surrounding area.

To establish, maintain and nurture partnerships to ensure the effective and efficient delivery of Emergency Medical Services and Public Safety Education.

To educate, encourage and recognize personnel for hard work, creativity and innovation in delivering quality patient care and public service.

To foster the development of community education programs designed to reduce illness and injury in our community.

To increase citizen awareness of the emergency action steps.

To foster two way communication with personnel, citizens and other public service and health personnel to ensure informed decisions.

To allocate and use resources in the most responsible way to provide needed services and education to the highest number of citizens.
